

# **NGO CONNECT**

## **ABSTRACT**

This project aims to develop a social media site for an NGO that focuses on creating awareness, fundraising, and community building for its social cause. The site will enable users to create profiles, share stories and updates, join groups, and connect with other members. It will also provide features for donating and volunteering, and integrate with popular social media platforms for wider outreach. The site will be user-friendly, secure, and accessible across multiple devices and platforms. The project team will work collaboratively to ensure that the site meets its objectives and is delivered on time and within budget. The site will serve as a platform for sharing and discussing social issues, fostering a sense of community, and promoting the NGO's social cause.

## **ACKNOWLEDGEMENT**

We would like to express our gratitude to all the people who have contributed to the development of this NGOConnect site.

First and foremost, we would like to thank the organizers of this Social Spark Hackathon organized by Light Gwalior, Sithouli for allowing us to work on this project and sharing their vision and goals. We are honored to be a part of this initiative and to support their efforts in creating a positive impact on society.

We would also like to thank our development team for their hard work and dedication. We appreciate the contributions of the UI/UX designer, front-end and back-end developers, and quality assurance tester who have put in their time and effort to create a user-friendly and secure platform.

## **Project Title**

### **NGO Connect**

#### **Project Overview:**

The project aims to create a social media site for an NGO that focuses on creating awareness, fundraising, and community building for its social cause. The site will allow users to create profiles, share stories and updates, join groups, and connect with other members. Additionally, the site will have features for donating and volunteering and will integrate with popular social media platforms for wider outreach.

#### **Project Objectives:**

- To create a user-friendly social media site that serves as a platform for sharing and discussing social issues.
- To enable users to create profiles, post updates, share multimedia content, and interact with other members.
- To provide a seamless and secure donation and volunteering experience.
- To integrate with popular social media platforms for wider outreach.
- To ensure the site is accessible and responsive across multiple devices and platforms.

#### **Project Scope:**

The scope of the project includes the following features:

- User registration and profile creation
- User authentication and authorization
- Newsfeed and timeline for posts and updates
- Group creation and membership (future timeline)
- Donations (future timeline)
- Volunteering page
- Integration with popular social media platforms (Facebook, Twitter, Instagram)
- Admin dashboard for managing users, groups, and content

**Project Deliverables:**

- Front-end development using HTML, CSS, and JavaScript
- Back-end development using Node.js and Firebase
- Payment gateway integration for donations (Future Timeline)
- Social media integration using APIs (Future Timeline)
- Admin dashboard for managing content and users
- Testing and quality assurance
- Documentation for the project

**Project Team:**

The project team consists of the following members:

Dhruv Modi, Shivangi Sahu and Yash Mishra

## **CONCLUSION**

The Social Media Site for an NGO project aims to create an interactive platform that facilitates community building and fundraising for a social cause. The site will allow users to connect with each other, share stories and updates, and donate or volunteer for the cause. The project team will work collaboratively to ensure the project meets its objectives and is delivered on time and within budget.
